September 29, 1992

Dear Mr. Dennis,

As per our conversation of September 29th regarding a work plan extension for the Selmer facility in Elkhart, Indiana, please be advised that the revised work plan will be due within two weeks of our October 6th site visit. This extension should give you sufficient time to make the necessary changes as discussed in the September 24, 1992 conference call and include any specified targets identified by us in the field.

If you have any questions please feel free to call me at (312) 886-1959.

Sincerely;

Kenneth Theisen, U. S. EPA, Region V
